Ethically Certified Factory Catalogue

HKTDC Toys and Games Fair 2020

Your guide to finding ethically certified factory exhibitors at the toy fair
About Ethical Toy Program Certification

Why source from ethically certified factories?

By sourcing your product from certified factories, not only are you complying with the requirements of the world’s largest retailers and meeting regulatory commitments, you are also doing your bit to ensure your products are manufactured responsibly in environments which respect workers.

Ethical Toy Program Certification verifies your factories’ ethical, environmental and social practices to manage risks and protect your corporate reputation.

What is the Ethical Toy Program?

The ICTI Ethical Toy Program is the global standard for ethical toy manufacture.

Our Certification is the leading industry-wide standard which international toy buyers trust; over two-thirds of the world’s toys are produced in Ethical Toy Program Certified factories.

Ethical Toy Program certification plays a major role in reducing audit duplication by providing a single responsible toy sourcing standard that is requested and accepted by toy brands and retailers worldwide.
What type of products do Ethical Toy Program certified factories manufacture?

The ICTI Ethical Toy Program covers hundreds of different types of toy and entertainment products including plastic, plush, printing, dolls, electronics, games, seasonal items, wooden toys and many more.

How to use this catalogue:

This catalogue highlights some of the ICTI Ethical Toy Program certified manufacturers exhibiting at the 2020 Hong Kong Toy & Games Fair. The catalogue is divided by hall and the booth number for each manufacturer is provided so you can easily locate them as you navigate the fair. For each factory you will see their unique Certification number (e.g. C000001), this number is used to verify that a factory has valid certification.
